

# SOLUTIONS CONTRACT SAVOYE SYSTEM

Resolute Design Team, 2007–2011

**SAVOYE** is a flexible system of large scale drum shade light fixtures suitable for a diverse range of applications.

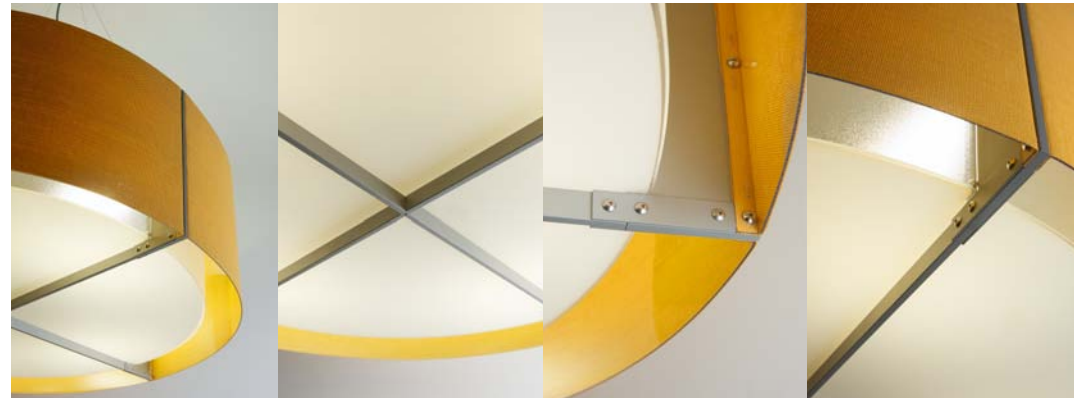

The scheme incorporates double layer side diffusion and offers 100% bottom closure. Top closure is optional. The design has been optimized for effective, flattering fluorescent illumination. Dimming is fully supported.

The SAVOYE system has been designed to offer complete flexibility in drums and cylinders ranging from 32" to 60" diameter. Size and proportion are the designer's choice. Shade ht. is only limited by material constraints so anywhere from 9" to 94" high.

**Shade material choices** include a vast selection of resin panels from Knoll, 3form and Lumicor or high impact co-polymer covered with any of Carnegie's extensive **XOREL** fabric collection. Flexible finish options on the metal structure.

The resulting product is supremely durable.

Savoie is UL Listed.

AN EXAMPLE 36" IN DIAMETER X 12" HIGH, COVERED IN XOREL 6427-720 METEOR IS SHOWN IN THESE IMAGES
